

Performance Report: rre

Reporting Period: May 1 (Last 30 Days)

Project: abc

Project Background: as

Status: Recent work "abc" is currently in-progress.

Executive Summary

Over the past 30 days, the digital advertising efforts for **abc** have focused on driving high-intent lead generation through direct call inquiries. The current campaign is performing efficiently, successfully reaching over 10,000 unique individuals and maintaining a steady flow of direct communications at a stable cost-per-acquisition.

Campaign Performance

The analysis below details the performance of the active lead generation campaign. The primary objective is to capture leads via phone calls, ensuring immediate connection with potential clients.

Campaign: royal cont. call camp - 04/04/26 - 10\$

- **Status:** Active
- **Objective:** Leads (Calls)
- **Reach:** 10,596
- **Impressions:** 26,012
- **Frequency:** ~2.45 (Average number of times each person saw the ad)
- **Amount Spent:** CA\$307.79

Metric	Result
Calls Placed	22
Total Leads	22
Cost Per Call	CA\$13.99

Key Metrics Overview

This table summarizes the core KPIs for the reporting period, highlighting the efficiency of the current ad spend.

Key Performance Indicator	Value
Total Reach	10,596
Total Impressions	26,012
Total Conversions (Calls)	22
Average Cost Per Lead	CA\$13.99
Total Investment	CA\$307.79

Insights & Recommendations

What is working well:

- **Cost Efficiency:** Achieving a lead through a direct call for under CA\$14.00 is a strong result for this industry. This indicates that the targeting and messaging are resonating well with the intended audience.
- **Brand Awareness:** With over 26,000 impressions and a frequency of 2.45, we are staying top-of-mind with the target demographic without over-saturating the audience.

Areas for improvement:

- **Conversion Volume:** While the cost per lead is healthy, the total volume is limited by the current daily budget.
- **Lead Quality Tracking:** As work "abc" continues in-progress, we should align on the conversion rate from "Call Placed" to "Qualified Prospect" to ensure the CA\$13.99 acquisition cost translates to high ROI.

Actionable Next Steps:

1. **Scaling Opportunity:** Given the stability of the cost-per-call, we recommend a slight 10-15% increase in the daily budget to test if we can maintain this CPA while increasing total lead volume.
2. **Creative Refresh:** We will monitor the frequency closely; if it exceeds 3.0, we will introduce new ad creative to prevent "ad fatigue" and keep engagement high.
3. **Ongoing Optimization:** Continue monitoring the "abc" project milestones to ensure the digital strategy remains aligned with the broader project goals.
